Flexible Staffing Models

Bringing three decades of experience in the IT and Professional Services industry, we have serviced and partnered with 10,000+ consultants and hundreds of clients in the private sector to include Fortune 100 to Inc. 5000 firms in multiple industries. Whether you require program leadership, contingent labor for short or long-term engagements, or need to ramp up your full-time staff, Centurion has the proven understanding to effectively meet these objectives.

- ✓ **Staff Augmentation:** Manage your project staffing needs with contingent professional services in support of defined business objectives. Whether a client is looking to hire one contingent worker or a project team, while maintaining overall control and management of the project, Centurion has the flexibility and scalability to meet these requirements.
- ✓ **Workforce Support Services:** Centurion offers a creative Direct Hire service via our Workforce Support Services Practice. If you would like to augment your internal staff, whether you are a Fortune 100 company, Federal Prime Integrator, or a small business, we have the creative solution to meet those needs. Let us do the work for you by identifying and delivering the top talent in the marketplace.
